

ELEMENTS * CUMARIN

IT Pharma
INNOVATING TECHNOLOGY PHARMA

IMPROVES MICRO-CIRCULATION

The formula, based on the **bioflavonoids** present in Coumarin, provide an **antioxidant and restructuring solution** to the tissues, leading to a substantial improvement in the general condition of the skin.

The combination of active ingredients such as Coumarin and Rutin, classed as **vitamin P**, give the skin a toning and conditioning effect, **improving the micro-circulation and repairing the skin tissues**, particularly with regard to cellulite and localised fat, but without excluding acne treatments, where the accumulation of sebum prevents correct blood circulation.

Moreover, with the **anti-inflammatory** properties of Melilotus, facilitating **skin oxygenation** and Asiatic Centella, which **repairs and soothes the redness** of sensitive skin, as well as the **protective and antioxidant** properties of vitamin E present in Tocopherol, not only are we helping to activate the functions of the skin in the treated area, but we are also protecting it.

In other words, **Cumarin** will allow us to treat the problems of microcirculation and oxygenation of the skin, to enhance the skin's appearance and to return it to its natural condition.

ACTIVE INGREDIENTS

Rutin, Coumarin, Melilotus, Asiatic Centella, Tocopherol.

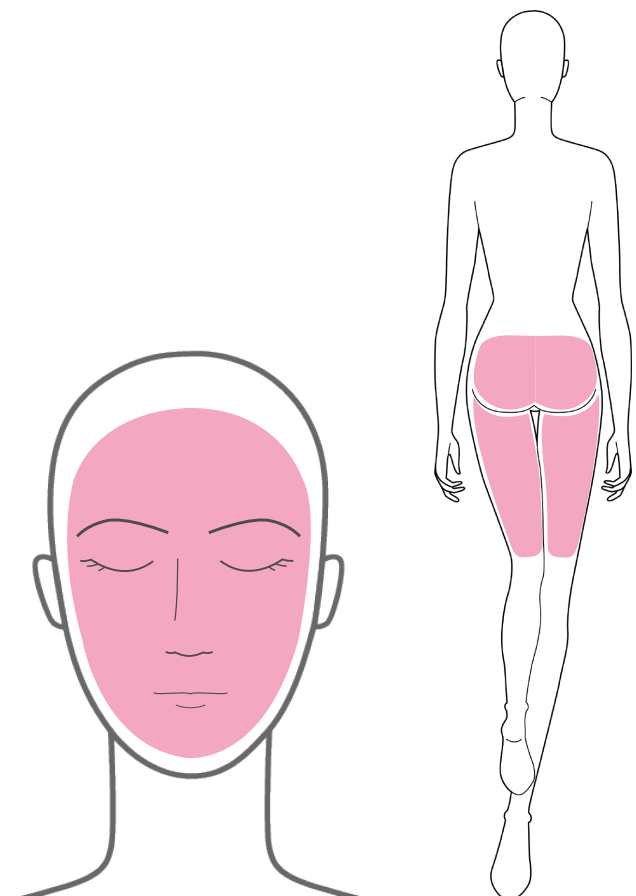

COMPOSITION

Aqua / Retinol / Ascorbic Acid /
Pentapeptide-3 / Acetyl Hexapeptide-8 /
Acetyl Octapeptide-3 / Sodium Hyaluronate
/ Avena Sativa Extract / Zinc Chloride /
Copper Gluconate / Cobalt Gluconate /
Arginine Aspartate / Valine / Pyridoxine /
Thiamine Hcl / Sodium Chloride / Sodium Hydroxide.

TREATMENTS

Cellulite, localised fat, acne, eye contour, circulation problems.
